

FARZANA JAN - TUTOR

My name is Farzana Jan and I have working with GOAL for the last four years as an English tutor. I have level 3 qualifications in Education and Learning (QCF). I enjoy using my skills to contribute to teaching and learning for adults. Since I am bilingual it allows me to communicate effectively with people from different backgrounds. I support my learners to develop their English language skills.

The thing I like most about my current role is my learners. I love interacting with them. I love helping them when they see the connection between what they are learning and their lives, it is even more rewarding. I love watching them grown year in, year out. I treasure those moments when learners tell you how you matter in their lives.
