

SANIA ANWAR

FAMILY SUPPORT /
EARLY YEAR CO-
ORDINATOR

ABOUT ME

Hi my name is Sania Anwar. I am a mother of two children aged 3 years and 18 months. I am a qualified Early Years Practitioner and Family Support worker.

Having worked in the community for the past 13 years I was delighted to be asked to support Go-Woman! Alliance CIC through these difficult times. Previous to my position with GOAL, I worked as a Family Support Worker within the local community.

My role was wide and varied supporting families through difficult periods and delivering various sessions to support family learning. I was and still am very passionate and fortunate to engage with parents in their own home using 'The Book Start Programme' and additional personalised Learning Interventions which equips parents with the necessary skills to support their children's learning within the home environment.

I am currently working with GOAL as an Early Years / Family Support Practitioner. Once again, I have the privilege of working within the local community facilitating virtual on-line Parent and Toddler sessions and supporting parents / individual families to acquire the skills for the very best outcomes for all.
