

Tahira Perveen

My name is Tahira and you could call me a GOAL veteran. I have been with GOAL since its inception in 2013.

It has been a pleasure in all these years to see how GOAL has grown and the successes of the service users.

I have worked in multiple roles over the years, from admin, to early years and the role I have now as a facilitator in DOSTI group. I love seeing our ladies every week and support them with various activities, such cooking, knitting, arts and crafts, exercise and always making myself available for my ladies even when they want someone to talk to.

I take pride in my role and don't just see it as a job but as me doing my part in helping my community.
