**GOAL** GO-WOMAN!  
ALLIANCE CIC

# A family holistic empowering approach

An opportunity for you and your little one to have fun, learn and practice their skills, but most of all, to share some precious moments with other Parents and Children.

Sessions are designed to support both parent and child learning; to enable the continuation of early learning experiences within the home environment. The support consists of:

- One to one targeted weekly, ½ hour session with parents/carers and child identified through initial assessment and ongoing observations.
- Weekly 1½ hour Teach Me, Teach You group session; developing peer support network for families.
- Family homework learning packs to extend child/parent/carer reciprocal learning.
- Weekly follow up Welfare Call - Identifying ongoing family support and learning.
